Celebrating Our
**Seafaring
Heritage**

District Celebrations

**CELEBRATE
CAYMAN**

*Celebrating Our
Seafaring Heritage*

Seafaring is an integral part of the Cayman Islands history, identity, society, economy, and development.

For decades, thousands of Caymanians depended on the sea for their livelihood. Through their heroic efforts in boat building, shipbuilding, shipping administration, turtling, and seafaring, these hardy and intrepid Caymanians built the foundation of our islands. We recognise the women who stayed home to 'hold the fort and raise their families while their loved ones were far away, as well as those rare few who ventured out to sea or were otherwise critical to the seafaring trade. Through challenging times and shifting tides, they all lifted an entire nation towards a better way of life.

The 2021 National Heroes Day recognised the men and women who made exceptional contributions to our seafaring heritage. The three-day event saw over 400 seafarers recognised under six categories.

Following the easing of COVID-19 public health restrictions, and in order to recognise the contributions of all Seafarers who were not recognised at National Heroes Day 2021, the Cayman Islands Government has identified eligible recipients based on records retained by the Cayman Islands Seafarers Registry, previous National Heroes Day nominations, The Cayman Islands Seafarers Association, the Southwell Years book, Ms Gwen Bush's notebooks (*currently held by the Cayman Islands National Archives*), as well as other government records.

Award Recipients

Eligible Recipients of the Cayman Islands Seafarers Insignia are listed below (*in alphabetical order, by last name*) and will be recognised at celebrations in their respective districts. If you know of a seafarer who was not recognised at the 2021 National Heroes Day ceremony and is also not listed below, please register them via the Seafarers Registry (seafarersregistry.ky) by **Friday, 28 October 2022** or simply scan the QR code and select the "Register+" icon from the main menu. **Seafarers must be registered by this date to be recognised at the upcoming district celebrations.**

There is a possibility some of the names below are duplicates or may have spelling errors, as such we welcome corrections and clarifications which can be submitted by email to celebratecayman@gov.ky

About Celebrate Cayman: **Celebrating Our Seafaring Heritage**

A national celebration of our culture, history, and community

The Cayman Islands Government designated 2021 as the year of Celebrating Our Seafaring Heritage.

Seafaring: the Foundation of our Islands

Seafaring is an integral part of the Cayman Islands history, identity, society, economy, and development. For decades, thousands of Caymanians depended on the sea for their livelihood. Through their heroic efforts in boat building, ship building, shipping administration, turtling, and seafaring, these hardy and intrepid Caymanians built the foundation of our islands. We recognise the women who stayed home to 'hold the fort' and raised the families while their loved ones were far away as well as those rare few who ventured out to sea or were otherwise critical to the seafaring trade. Through challenging times and shifting tides, they all lifted an entire nation towards a better way of life.

Islands 'Founded Upon the Seas'

The Cayman Islands is indeed "... *founded upon the seas*" and our motto reminds us of our heritage and our identity. From building sailing vessels at home to fishing out on the high seas hundreds of miles away, from piloting catboats while turtle ranging to sailing the world on merchant ships of all sizes and classes, our seafaring people became renowned worldwide for their skills with attributes of resilience, perseverance, an aptitude for hard work, independence, and a spirit of entrepreneurship that made us who we are today.
